INBA's GLOBAL EDUCATION FAIR 2021

November, 2021

STUDENTS PARTICIPATION PAN INDIA

**Overseas Education Investment by Indian
Students has risen to \$13.8 billion in FY20**

INBA's 5th Global Education Fair 2021 aims at providing a perfect platform for scores of aspiring Indian students on one hand and globally reputed and accredited colleges and universities from around the world on the other, to meet and explore mutually and academically beneficial avenues of learning and growth. This international event will create a wide global panorama for the benefit of Indian students hailing from diverse disciplines and geographies across the country, career guidance and counseling programs for admissions to various marquee global programs dedicated workshops to address critical touch points such as admissions process, entrance and eligibility tests and and scores, student visas, financial documentation, scholarships and so on.

**Career
Counselling**

**College
Presentations**

**Visa
Support**

On Spot Evaluation

Leading overseas colleges and universities will be able to demonstrate their sterling syllabi and streams, illustrious faculty and highly acclaimed programs to Indian students who are desirous of seeking overseas admissions and getting their dreams fulfilled. Participating colleges will directly benefit by the presence of scores of pre-qualified students from multiple disciplines, and their parents at the expo floors also get heard and noticed at the concurrent presentations that would be **organized on the side-lines of these 2-city fairs.**

WHY EXHIBIT

“For the past decade, India has been ranked first or second among countries sending students to study in the United States.”

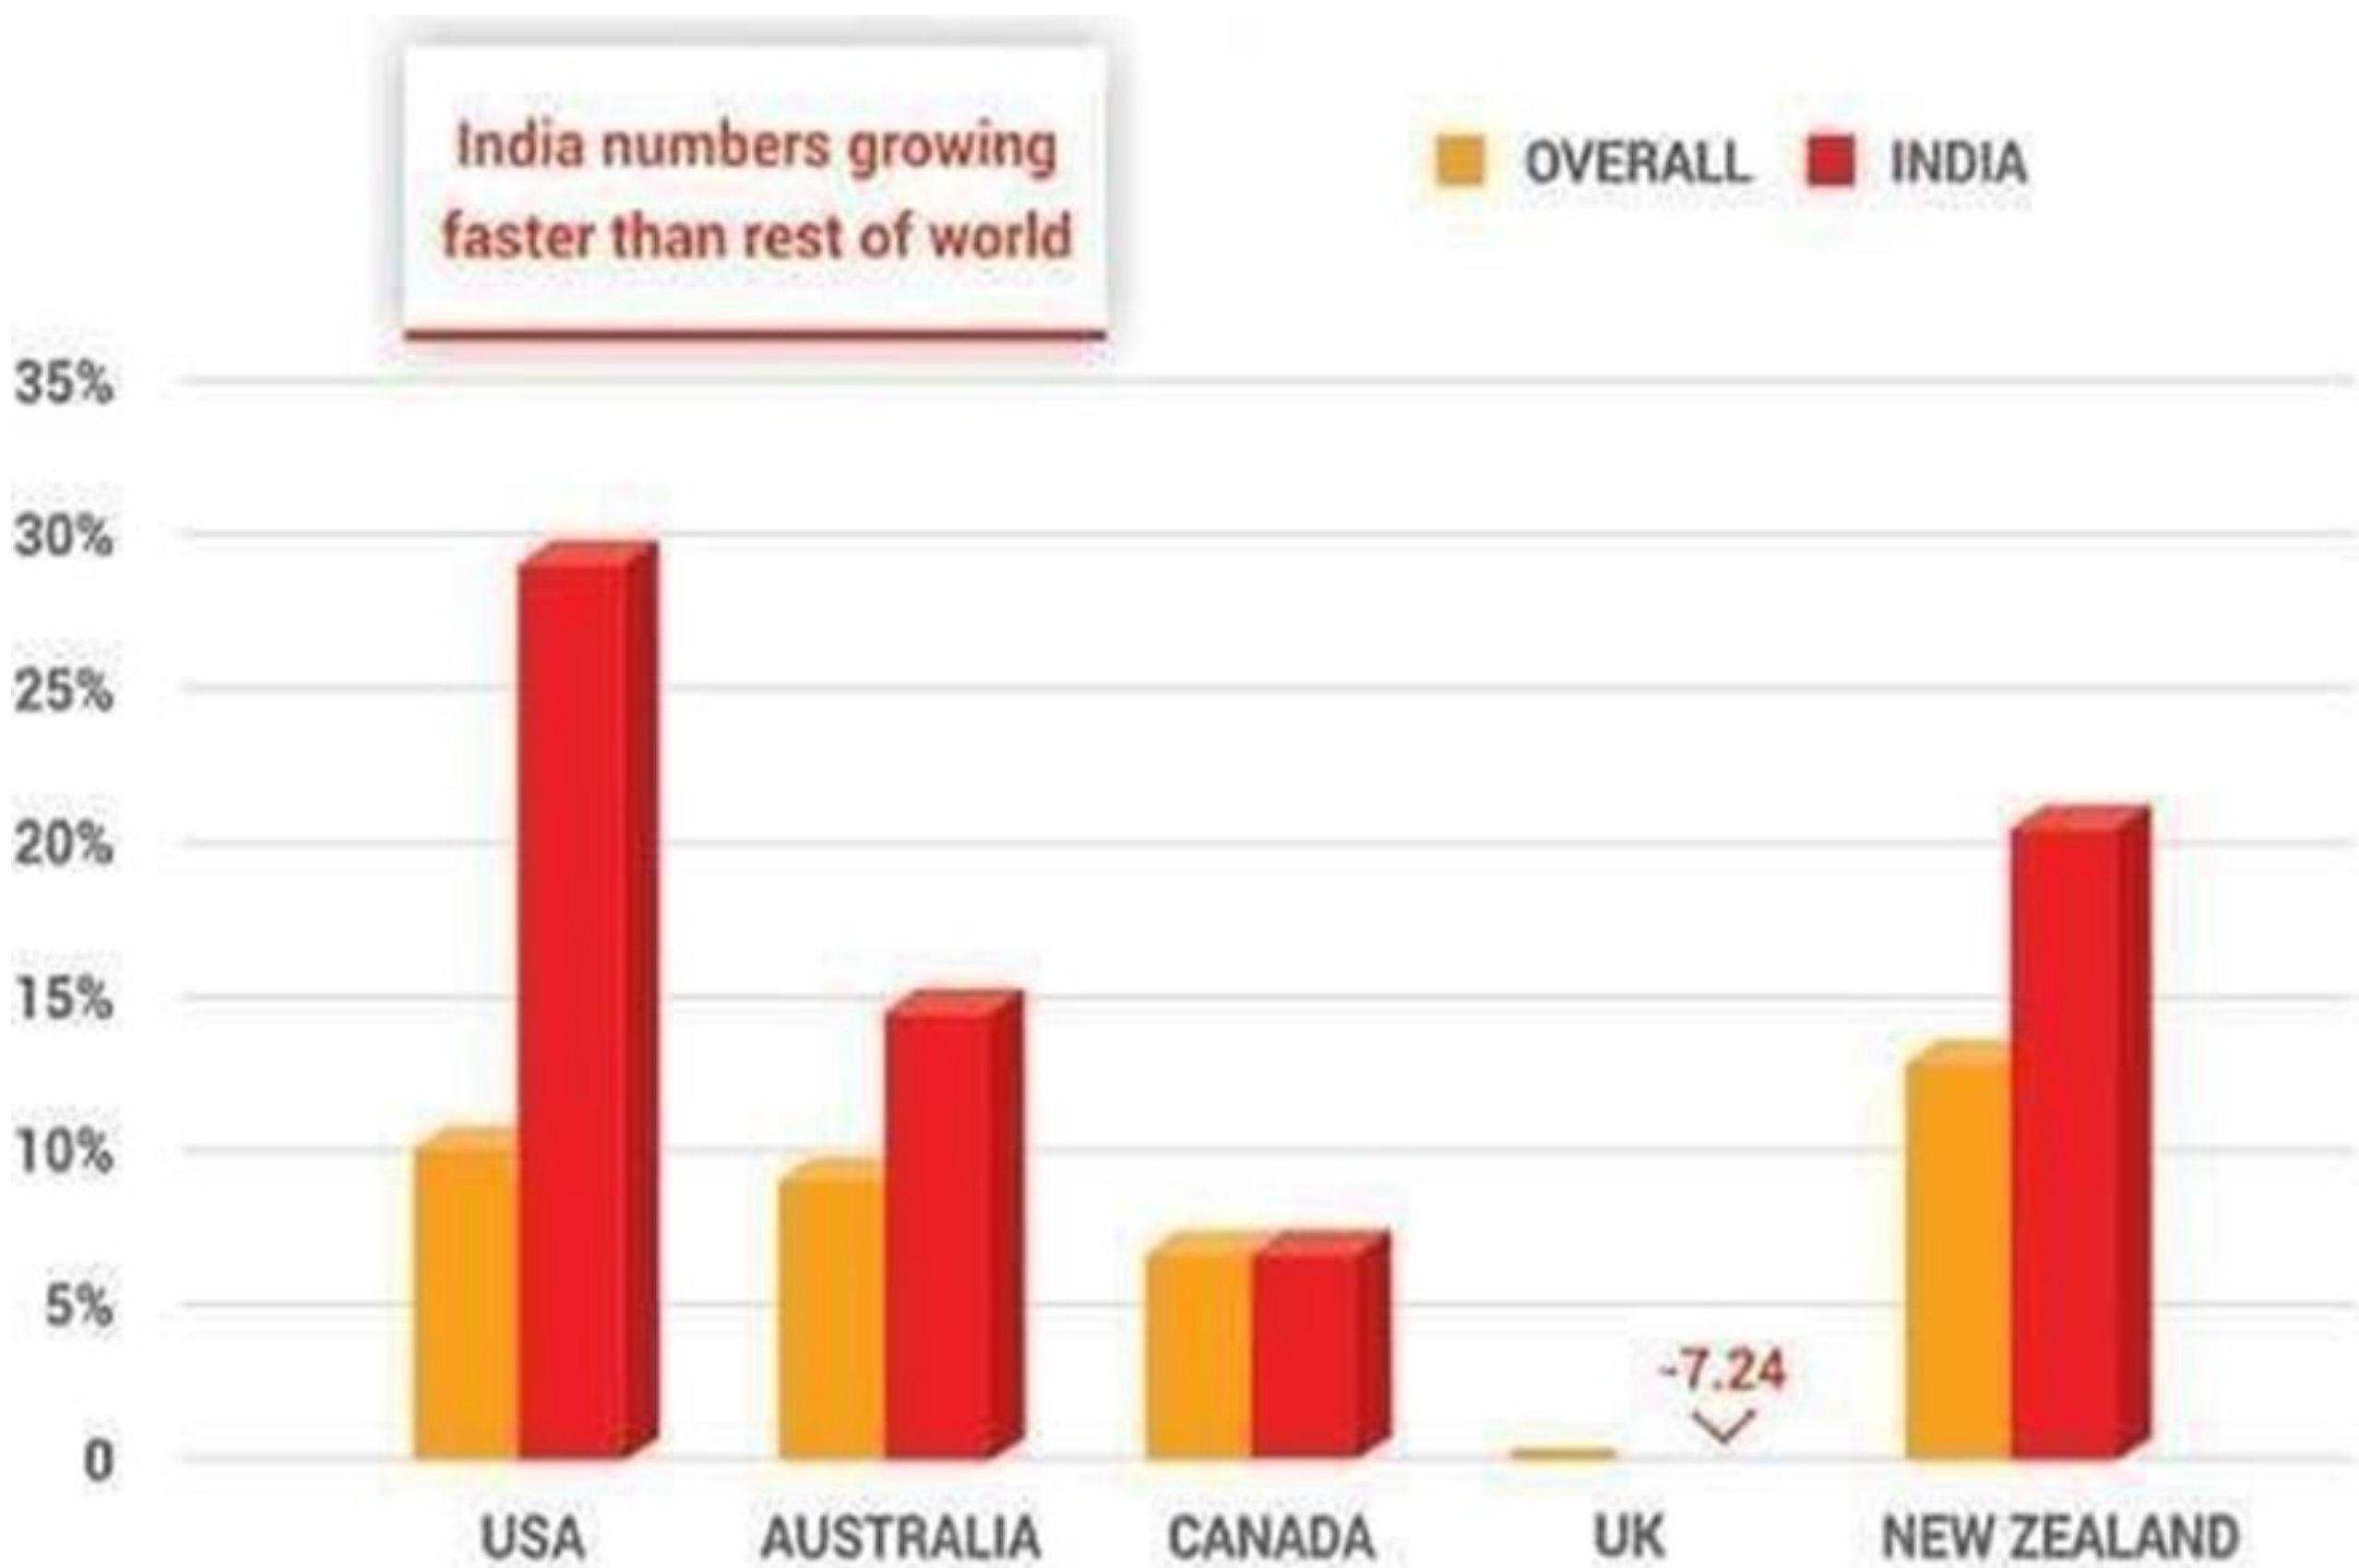

Build In-roads

Get to personally know and interact with thousands of ambitious and aspiring students who wish to pursue overseas programs for streams such as STEM, Aviation, Biopharma, Engineering, Medicine, Business Administration, Legal Studies, Inter-disciplinary courses, and other major streams. Indian students generally explore avenues of enrolling for a variety of under-graduation to graduation programs, and from masters to post-doctoral programs.

THE INDIAN PIE

Around 1.5 million Indian students fly out to various colleges in US alone annually. On an average, Indian students constitute nearly 15% of the total intake of students into the United States. (source- Education USA). More than 300,000 Indian students take admissions overseas annually

India also ranks among the highest English- speaking population globally and has recorded steady increase in savings and disposable surpluses over the past on account of being a developing economy. The number of Indian students is consistently growing double digit in terms of the monetary value as per the data disclosed by Reserve Bank of India (Central Bank of India). The year 2019 experienced a rise of 76.6% remittance by RBI for the purpose of studying abroad as compared to the previous year. The total amount remitted by Central Bank of India was 3569.9 US\$ Million for the Indian students going to abroad for the purpose of studying. The sequential growth in overseas education expenditure indicates that more Indian students are going abroad for pursuing education.

INTERESTING FACTS

Top Countries	Total in take of Overseas Students (2018)	Total Intake of Indian Students (2018)	Primary Courses
